**Special Considerations:** The Sheriff, as an independent constitutional officer, would not agree to the standard Inspector General language called for in School Board Policy 1.092(4)(d). Section 15 of the ILA contains the provision that was negotiated for this ILA with input from the Inspector General. The Inspector General approved this language for this specific ILA based on the fact that since there are no funds being exchanged, the risk of fraud, waste and abuse associated with this ILA is minimal and the modified language was adequate to protect the interests of the School Board.

Reviewed and approved as to form and legal sufficiency. Yes  No
