

On November 18, 2012, board member Dr. Debra Robinson asked the following question regarding Board Agenda Item: PSE3 The Reading and Writing Project Network LLC Professional Services Agreement.

A response was prepared by the Division of Quality Assurance, and is provided below:

Question:

Are we yet able to enter a specific training/initiative into EDW and later sort for outcomes to see if it appears to make a positive impact?

Response:

Currently, EDW does not collect data on training. The school center administration will monitor the training received. EDW does however, collect and report student results from the Elementary Literacy Assessment System, including Reading Running Records. This initiative utilizes these assessments to help teachers identify which level of texts students can read independently and will therefore be able to practice all the reading strategies they are learning during the Reading Workshop. These assessment results provide an analysis of comprehension, miscues, and, fluency
